Luper Cemetery Research

This document does not claim to be an exhaustive report on this name or this family. The purpose is to examine where the families in Luper Cemetery came from before they settled in the north Eugene/Irving/south Junction City area, where the family members went after the death of these family members, and how they might relate to others buried in Luper Cemetery.

This family has been thoroughly researched and documented using Ancestry.com, Eugene Register-Guard newspapers at Google News Archive, State birth, marriage and death certificates, city directories and more. This research was done using Family Tree Maker software with ability to search Ancestry.com and add those findings. I would be happy to share sources and/or discuss any discrepancies. My contact information is below.
